

Dementia in 90 Minutes

This course is suitable for people who want an insight into the condition and its effect on people's lives. Candidates should also feel more confident that they can make a positive contribution in caring for people with dementia.

The course is also appropriate for people who are more familiar with the condition and want to refresh and build on their existing knowledge. Candidates can be assured that the course is fully referenced and based on best practice.

What you will gain by attending:

- Understand what dementia is & how it affects people
- Explore how memory works
- Understand how the damaged brain affects functioning
- Understand how perceptual difficulties impact on wellbeing & behaviour
- Understand the barriers to effective communication & how to minimise them.
